Classification Description

CONSTRUCTION INSPECTOR MULTIPLE CERTIFICATION

<u>Class Title</u>	<u>Class Code</u>	<u>Pay Band</u>	<u>Alt Pay Band*</u>
Construction Inspector Multiple Certification	T40112	60	65

**In accordance with SPB Rule 1.7.4.10 NMAC, the assignment to alternative pay bands shall be reviewed annually to determine their appropriateness.*

Occupation Description

Inspect structures to determine structural soundness and compliance with specifications, building codes, Housing and Urban Development (HUD) Standards/Federal Regulations and other applicable statutes and rules. Inspections may be general in nature or maybe limited to a specific area, such as electrical, mechanical or plumbing systems.

Nature of Work

Conducts inspections and enforces codes, laws, and standards in the regulation of the construction and manufactured housing industries. Incumbents at this level specialize in two or more of the various disciplines of construction: electrical, mechanical, plumbing, general construction, or liquefied petroleum gas. Advanced inspectors may make an initial inspection during the first phase of construction, and follow-up inspections throughout the construction project to monitor compliance with applicable statutes and rules. Investigates consumer complaints and monitors unlicensed activity. Manufactured Housing Inspectors conduct inspections and audits of manufactured homes, plants, retail lots, and offices. They also conduct inspections of foundations for manufactured housing units.

Distinguishing Characteristics of Levels

Examples of work are intended to be cumulative for each progressively higher level of work. The omission of specific statements does not preclude management from assigning other duties which are reasonably within the scope of the duties.

- Provide code and technical training for inspectors as directed by the Bureau Chief.
- Provide computer training for inspectors as directed by the Bureau Chief.
- Provide technical assistance in code review and development.
- Conduct public hearings and outreach meetings as directed by the Bureau Chief.

Minimum Qualifications

If not already certified in two of the trades as set out below, each Inspector must pass the Residential Combination Inspector (RCI) examination in at least one additional trade within (1) year of employment or, who has passed the RCI program during their tenure of employment; and each Inspector must then remain certified in at least two of the following specialties:

CONSTRUCTION INSPECTOR MULTIPLE CERTIFICATION

Mechanical Trades, Plumbing, Gas Fitting: five (5) years of journeyman and/or foreman level experience; OR three (3) years of experience as a Construction Inspector. Applicants for a Mechanical Inspector position may substitute technical, university, or college training in a mechanical or electrical field for up to two (2) years of the three (3) years journeyman or foreman level experience. The equivalency shall be calculated such that one (1) year of technical, university or college training shall equal one half (1/2) a year of journeyman or foreman level experience. Further, in conjunction with the technical, university or college training, the applicant must demonstrate at least one (1) year of related field experience in his trade as a journeyman.

Or

Electrical Trades: five (5) years of journeyman and/or electrical foreman experience; OR three (3) years of experience as a Construction Inspector. Applicants for a mechanical or electrical inspector position may substitute technical, university, or college training in a mechanical or electrical field for up to two (2) years of the three (3) years journeyman or foreman level experience. The equivalency shall be calculated such that one (1) year of technical, university or college training shall equal one half (1/2) a year of journeyman or foreman level experience. Further, in conjunction with the technical, university or college training, the applicant must demonstrate at least one (1) year of related field experience in his trade as a journeyman.

Or

General Construction Inspectors: five (5) years foreman level experience in General Construction; OR three (3) years of experience as a Construction Inspector. Applicants for a general construction position may substitute technical, university, or college training in a general construction field for up to two (2) years of the three (3) years of foreman level experience. The equivalency shall be calculated such that one (1) year of technical, university or college training shall equal one half (1/2) a year of foreman level experience. Further, in conjunction with the technical, university or college training, the applicant must demonstrate at least one (1) year of related field experience in his trade at a foreman level position.

Or

LP Gas: Any combination of training and experience totaling five (5) years in the design or construction of LP Gas plants, transporters or appliances; as an LP Gas installer, dispenser, transporter, inspector or plan operator; or other related LP Gas occupation. One (1) year of such experience MUST have been in LP Gas installation; OR three (3) years of experience as a Construction Inspector.

Or

MHD Inspector requires four (4) years of experience in the field of Manufactured Home Repair, Construction, Servicing, Installation and/or Building, Mechanical or Electrical Trades; OR three (3) years of experience as a Construction Inspector.

organizations to make improvements or take corrective action.

Social Perceptiveness — Being aware of others' reactions and understanding why they react as they do.

Time Management — Managing one's own time and the time of others.

Statutory Requirements:

If not already certified in his/her specialty as set out below, each inspector must pass the examination of a national certifying organization recognized by the Division within one (1) year of employment; and each inspector must then remain certified by such certifying organization.

- Electrical inspectors shall pass the certification test administered by the ICBO or IAEL, or an equivalent, as determined appropriate by the Electrical Bureau.
- Mechanical inspectors shall pass the certification test administered by the ICBO or IAPMO, or an equivalent, as determined appropriate by the Mechanical Bureau.
- General construction inspectors shall pass the certification test administered by the ICBO, or an equivalent, as determined appropriate by the General Construction Bureau.

Conditions of Employment: Working Conditions for individual positions in this classification will vary based on each *agency's utilization, essential functions, and the recruitment needs* at the time a vacancy is posted. All requirements are subject to possible modification to reasonably accommodate individuals with disabilities.

Default FLSA Status: Non-Exempt. FLSA status may be determined to be different at the agency level based on the agency's utilization of the position.

Bargaining Unit: This position may be covered by a collective bargaining agreement and all terms/conditions of that agreement apply and must be adhered to.

Established: 06/22/2012 **Revised:** 3/08/13
