He reported that Job Architecture (JA) is moving forward and all agencies are doing their part to get the job catalog current and accurate within the JA structure. Lange noted that agencies using SPO HR Services will be asked to pay in advance rather than at the end of the fiscal year so that the payments are supporting the work HRS is doing throughout the year.

Lange gave a legislative update with an explanation of the GRO fund for the next 3 years. We will be charged with ensuring that the money is used for performance and making a difference with recruitment and retention. With that funding, 6 new employees will be hired at the beginning of the fiscal year. Quarterly performance measures mentioned and included in the report.

Exciting session for the SPO and all state employees which included a 4% salary increase

for state employees across the board. Investing in our human capital. Another important benefit is Longevity pay is being implemented for continuous state service beginning July 1, 2025. Additionally, a big win for employees and signed into law, the legislature passed a bill where the state pays 80% of the premium for health care.

Stand for questions – no questions from board members.
